CONTROL KNOBS & INSTRUMENT KNOBS

Innovative Components offers an extensive line of pointer knobs and instrument knobs. From crisp lines to soft contours, Innovative has a control knob that will suit your needs. Knobs can be decorated or customized to your specific requirements. Custom color matching, indicator lines, aluminum inlays, pad printing, and hot stamping are available. Knobs available in nylon, ABS, and other thermoplastics. Sizes ranging from 1/2" to 3" in diameter. Shaft configurations can be accommodated. Custom sizes available.

Our skirted knob family is one of our most versatile products. The skirts can be customized to your specifications with numbers, heat settings, and indicator lines. Knobs available in nylon, ABS, and other thermoplastics. Sizes ranging from 3/8" to 3" in diameter. Custom sizes available.
